With CI Focus as your Performance Partner providing and supporting the CI Drill software platform, you get

24/7 Performance Visualization
for informed Planning, Analysis and Decision Support

with no change to your current systems and procedures

Get the benefits without the work. Just add CI Drill to your DDR distribution .		
We take care of the inputs. You see the results.		
Drilling Operations	Informed decision support optimizes drilling ops	$2,500+ / hr
Standby	Better forecasting controls standby time	$100s to $1,000s /hr
Waiting	Better forecasting reduces Wait on Equipment	Ops $2,500 / hr + Hot Shot costs $100s to $1,000s
Administration	Reduce time and effort preparing for meetings. Immediate issue resolution – information is ready and on-line. Reduce engineering time to produce and manage drilling progs. No more hunting through email for reports	Maximize well delivery team members' time 100s of hours per week @ $50+ / hour
Systems	Eliminate time consuming & error prone spreadsheets	Avoid making $million+ decisions on uncontrolled data

CI Drill Services

Analysis **Meetings** **Action**	**CI Drill - an indispensable decision support tool** Performance against target is immediately presented for all wells in progress. Dynamic charts reveal underlying data simply by hovering over any point. Performance charting is automatic – no need to generate and output reports. Visualization with dynamic charts makes all planning and management processes more effective – daily call-in meetings, engineering review meetings, planning, situational decision making…….	
Planning	**Forecasting** Accurately forecast upcoming operations. Improve scheduling of service operations. Avoid Standby and Wait-on costs Eliminate time, effort and errors associated with spreadsheets.	

Additional Functionality Available

Engineering	**Integrated Engineers Drilling Prog** Eliminates the problems and risks associated with the common practice in the industry of writing and distributing progs as stand-alone word processing documents. Consistent presentation, Standardized terminology Unlimited notes and attachments Enables simple and accurate time reporting

See how CI Drill can enhance your well delivery performance.
